# L'UTOPIE ET L'ARCHITECTURE: UNE BIBLIOGRAPHIE

*by/par: James J. Kopp*

The paths of architecture and utopia have crisscrossed throughout history, as this issue of *The Fifth Column* highlights. Studies of this phenomenon have abounded in the past several years and recorded here is an attempt to document many of these studies.

This bibliography has been compiled from the Avery Index to Architectural Periodicals, in both its printed form and its online version,<sup>1</sup> and the catalogue of the Avery Architectural and Fine Arts Library at Columbia University. The primary focus of the bibliography is on "utopias," the communitarian experience as well as the literary genre, but aspects of the "ideal city" and "fantastic architecture" are also included. A few general studies of utopias and utopian movements are cited. The bibliography is not all inclusive or complete but it does utilize two of the most comprehensive bibliographic sources available in architecture.

*Au long de l'histoire, les thèmes de l'Architecture et de l'Utopie se sont souvent entrecroisés. De nombreuses études à propos de ce phénomène ont été menées au cours des dernières années. Elles sont rassemblées ici afin de constituer un document sur le sujet.*

*Cette bibliographie a été élaborée à partir du Avery Index to Architectural Periodicals<sup>1</sup> et du catalogue de Avery Architectural and Fine Arts Library de l'Université Columbia. Cette bibliographie est basée sur la notion de l'Utopie: de l'expérience communautaire ainsi que du genre littéraire. Certains aspects de la "ville idéale" et de l'architecture fantastique sont inclus, de même que quelques études générales à propos de l'Utopie et des mouvements utopiques.*

*Cette bibliographie n'est pas exhaustive, mais elle se compose de deux des sources bibliographiques les plus complètes disponibles en architecture.*
